Buy this and buy the new Sigil campaign made by John Romero himself. And yes you should get the paid version of Sigil for the Buckethead OST!. when is the thanos dlc out. You have no chance without a company of 100s. Boring mechanics. Ark or Conan Exiles are a better choice.. Love the skin, however it would be a veri nais idea to add a "Tribal Monkey" to the game, or to Bloons TD 6, I would love to see that. This game is very fun and somewhat addicting. Right before this game came out on steam I heard about it- A REMAKE OF THE OLD CAPTAIN FOREVER BROWSER GAME! This caught my eye, as I played the original captain forever and I loved it. I got this game when it came out and let me tell you this, it. Is. Hard. If you thought that the original was hard then wait until you play this! Sure it is sort of cheap with a huge difficulty spike from orange to red but it is challenging, it wants to make you cry, and it makes you want to play more. If you liked the browser game (which is free and you can try right now at [captainforever.com](http://captainforever.com)) and you want more, [play this](#). BUT, [do not expect this to be as easy as the original!](#). [Why do i have to scavenge for food, gathering resources is so tedious while the other team just rushes at your base, why can i only find scopes and things in random boxes in village houses, so in this game you basically have to solve the murder of a blackmailing ♥♥♥♥♥♥♥♥ that nobody liked because he all he did was nose around in other people's business thinking 'heh suckers time to retire at age 17 with all this sweet bank im going to make from being a blackmailing ♥♥♥♥♥♥♥♥. good thing im self-aware that i am a piece of ♥♥♥♥♥♥♥♥and knew somebody was going to beat the♥♥♥♥♥♥♥♥out of me for all the trouble i caused and left all these notes around.'](#)

[the biggest mistakes u can make in this game is taking the hints too seriously, and trying to progress too far without looking at everything... because u need to look at everything in order to be allowed to progress, really sucks to get stuck because u didn't look at 1 thing that was completely unrelated.](#)

[^^ that happened to a friend btw not me !! i never get stuck!! game took me 30 minutes BUT I SPENT 5 HOURS AND 30 MINUTES IDLING OK PLS \\*super smug grin\\* \(o^o\). Loving this! An inspired re-imagining of the old "snake" format of games: leading a line of heroes to destroy wandering enemies without running into them \(or the walls\) you unlock new heroes by finishing stages, and the heroes themselves can be levelled to improve survivability and damage output \(upgrades are a fixed path per character and persist from run to run\)](#)

[In game currency allows for upgrades and skipping levels or adding more heroes before a stage starts, as well as a few buffs that will last for the entire run \(however short that may be\)](#)

[Picked this up on sale for the utterly insane price of 39p HIGHLY RECOMMENDED! ^ ^](#)

so bad this game. This is one of the best VR experiences I have had. I tend to rank a VR experience by how much I can lose myself in it. I want to be immersed and that's what I get. I'm in the casino, I'm throwing the dice. I'm drinking a brown liquid... I like this game, it gives me the option to do what my ancestors never were able to. To conquer all Europe with my boy Wallachia. This is how things should have been. Will let you know if I managed to travel back in time and implement my plan.

Worth buying since this version doesn't have 50+ dlc like the fourth installment.. Refunded - Shmups are one of my fave game types but no one seems to understand the importance of non-flashy visuals, if I can't see enemy bullets clearly because of over the top graphic fx it's not a proper shmup, I had high hopes due to similarities to R-Type in the visuals but found the controls sluggish and game not challenging enough for the genre. Naive twins (not really) run a farm (barely) and are so far in debt that they exchange sexual favors for firewood and store coupons. Amazing English translation. XD

Better played with the R18 patch.. Worst game company I've ever seen, greedy people who push updates to make all tech need replacements every month or so, and when they finally do a "catch up" event... they rig it to where no one can get online to do it. Was trying to get into the game again because I heard it improved... of course that was a dead lie. Been back a few days and already pulled my hair out with their "bugs". OMG \u2665\u2665\u2665\u2665 this game, just came back from the electronic store to buy another keyboard because my last one ended in the wall because of that f@\*\$%ng game...

Well played Boogymemes...

This game should be used as a tool in an anger management therapy...
